

Five questions to ask any AI tool built for instructional leaders

An evaluation framework

Access this resource & more

01

Does it have your context?

Reads your rubric, vision and school context, not generic advice

02

Is it grounded in research?

Recommendations trace back to well-researched pedagogy

03

Does a leader confirm first?

A person reviews each insight before it drives coaching or messages

04

Is your data protected?

Student and staff data stay private and never train outside models

05

Does practice change?

Decisions come sooner and coaching gets sharper

The Ascend Snapshot

	Before CARE AI	After CARE AI
Time to analyze observation data	Weeks	About 48 hours
Professional development cycle	7 to 14 days	2 days
Turnaround to leaders	One to 14 days	Within 48 hours network-level trends to School Management within hours
Board-level analysis	Up to a week of analysis and verification	Within the hour

Thank you for joining us!

We'd love to hear from you.
